**MEMORANDUM FOR: The Information Processing Coordinators**  
**SUBJECT : ADP Presentation by Goodyear Aerospace**

1. A presentation by engineering, project and management representatives of Goodyear Aerospace will be held as follows.

29 March 1967

0930 -- one hour presentation & questions  
Room 6 E 60

The subject will be recent developments in ADP by Goodyear Aerospace and will include these topics:

- An Associative List Selector
- A Switching Network for multiple computers (like COINS)
- ELINT applications
- Associative Processor Developments
- Associative Memory
- Non-destructive memory readout.

2. The attendance of interested Agency ADP personnel is invited. Room 6 E 60, the DDS&T Conference Room will accommodate approximately 30 persons. It is requested that IP coordinators extend this invitation to the offices and persons in their Directorates who are interested in ADP development. Please advise [REDACTED] of the number expected from each Directorate, by 27 March, so that a larger room can be obtained, if necessary. Goodyear Aerospace has been advised of the caliber of the audience expected and of the necessity for a worthwhile presentation.
